Michael Krähmer:
Picture "Rocky coast II" (2024)

€3,400.00

The picture is painted using the time-consuming resin oil glazing technique of the old masters. Transparent oil paint mixed with dissolved resin is glazed with a brush in many wafer-thin layers, creating shimmering, almost three-dimensional color spaces. The creation of such a painting takes up to a month. The fresh, brilliant colors and the captivating clarity of the picture radiate into the ambience of the room in which it hangs
