
Irina Laube:
Picture "Summer green III" (2024)

I take my ideas and inspiration for my work from nature and its various facets. The process of creating pictures is based on deliberate chance and exact development. The focus of my work is on colors, structures and forms, which I want to realize in a certain harmony using different techniques. Not to reveal too much, not to imitate, which also means not to dictate. A landscape in blue and green. The sides of the picture are painted, finished with varnish with UV protection. The picture is signed on the front and signed and dated on the back.
