Viktor Lau:
Picture "To the palace" (2018)

€2,100.00

The paintings "Three Bridges", "To the Palace", "Shoals" and "The Temple" are a series of fantasy landscapes that represent a symbiosis of childhood memories from landscapes of Central Asia and Europe. The architectural elements of bridges, ruins and buildings are also a combination from these different cultures. In the painting "To the Palace", the palace is symbolic of the future, which will emerge from a combination of different cultural influences. The ruins stand for what is past, what has passed away.
