## Magnum Ferra: Picture "THE WISDOM" (2024)

## €595.00

The artwork "THE WISDOM" is an inspiring and multi-layered creation that combines the beauty and power of nature with the creative essence of femininity. With a combination of flowers, birds and a striking portrait of a woman inspired by Audrey Hepburn, this work invites the viewer to reflect on the deep connection between nature, art and the creative power of women. The work is produced as a premium print on polystyrene board and then molded by hand, creating a unique sculptural dimension. This technique gives the composition a tangible vibrancy, while the harmonious fusion of natural elements and artistic expression emphasizes the dual strength and vulnerability inherent in both nature and femininity.
