Hasso Heybrock: Picture "pink melody" (2025)

€2,400.00

Here in the north, the sea breeze and the clouds in the twilight hours stage a sky spectacle in pink and rose tones with tension and depth, the sight is breathtakingly beautiful. The clouds and the haze dance in space like the notes of a melody; the landscape below shows the dynamic reflection of the show in muted blue and gray-brown nuances. "Pink melody" tells of these moments and gives the viewer space to immerse themselves in this mood, regardless of the place and time. The painting thematizes the same landscape and nature experience as the paintings "pink morning" and "pink horizon", but it is created in the larger size of a landscape painting.
