

Mila Weis: Picture "Pink Sunset" (2022)

€2,300.00

The fascinating world of light inspired my interest in exploring this physical phenomenon. This series focuses on the fleeting phenomena of light and its reflection. The attraction of light and its pulsating energy are interpreted in abstract form. The movement and constant flow of the brushstrokes create liveliness in the works and are reminiscent of the play of sea waves and landscapes against the light. The work is hand-signed, dated and carefully shipped with a certificate of authenticity with many protective measures.
