

## **Birgit Horn: Picture "BECOMING" (2022)**

**€3,800.00**

The picture shows a young woman sitting in an antique-looking armchair and fixing the viewer with a direct, calm gaze. The composition, characterized by the contrasts between the protagonist, the dark background and the view from the window, opens up room for multi-layered interpretations. The woman appears self-confident and calm. Her pose and direct gaze lend her a presence that conveys an impression of inner strength. The window with the blue sky and the palm leaves creates a contrast to the darkness of the still life. This view outside symbolizes freedom, hope and a new perspective.
