

Michael Krähmer: Picture "Spring forest" (2023)

€1,800.00

The painting is painted using the old master resin oil glaze technique, in which wafer-thin transparent layers of paint are laid on top of each other to create an almost three-dimensional depth. The bright, lush green of a deciduous forest in May radiates a fresh, invigorating effect on the room. A treat for the eye and refreshing for the mind.
