

Sonja Neumann: Picture "Pool landscape" (2011)

€3,300.00

This work of art brings you the summer vacation directly into your 4 walls! It is one of the largest formats that I have painted so far. The reflections of the water and the reflections of the seating area in the water make this picture special. This large format gives the room with its summery colors a very positive, cheerful mood. Actually, you want to dive right in when you look at it!
