

## Hasso Heybrock: Picture "a gentle summer breeze" (2025)

€950.00

It's summer and the brightness of the long days makes us feel happy and free. The hot air flickers across the land and the soft light lets us drift in the light-heartedness of the moment, now everything is so light and so incomprehensibly beautiful. "a gentle summer breeze!" describes this attitude to life with its soft colors and light flow of shapes. It shines on the wall and, with its positive and cheerful expression, tells us about the lightness of life and is also an invitation to the viewer to absorb this mood and simply feel good.
