

Heinz Stoewer: Picture "cholla" (2024)

€1,700.00

Inspired by his impressions of the Californian desert, the artist took a dead cholla cactus as the model for this work. Heinz Stoewer has incorporated the collected impressions into his work in an abstract form and further intensified the alienation of the original through the bright light blue background, virtually removing it from nature. The painting is dated and signed by the artist on the back.
