

Regine Lange: Picture "Beauty of the forest" (2024)

€1,200.00

A stream flows through the forest, the birds are singing in the trees, the sunlight makes the leaves and grasses glow and you can enjoy nature. Bring nature into your home and feel as if you are standing right in the forest. The picture was painted on a high-quality canvas and the border (approx. 2 cm wide) also has color, so you don't necessarily need a frame. It can be hung up directly.
