

Heike Schümann: Picture "Colorful shadow" (2022)

€2,200.00

The work "Bunter Schatten" by Heike Schümann is an abstract-figurative representation that was created during a nude painting session in the studio on the Baltic Sea. The interplay between the dark, seated figure and the colorful, standing figure creates tension and opens up various possibilities for interpretation. It could represent a variety of themes or opposites, such as calm and movement, darkness and brightness, contemplation and joie de vivre. The work invites the viewer to develop their own perspective and interpretation and offers space for individual thoughts and emotions. The acrylic painting is a unique piece on canvas and belongs to the style of contemporary art. The original artwork is painted with high-quality acrylic paints, dated and signed by the artist.
