

Michael Krähmer: Picture "Mountain lake XI" (2024)

€6,500.00

The picture is painted using the time-consuming resin oil glazing technique of the old masters. Transparent oil paint mixed with dissolved resin is glazed with a brush in many wafer-thin layers, creating shimmering, almost three-dimensional color spaces. The creation of such a painting takes up to a month. A crystal-clear mountain lake at dusk, not a breath of wind stirs and a magical stillness is created - a picture that allows the soul to find peace and clarity.
