

## Carmen Lütkehaus: Picture "Hidden Horizons..." (2024)

€2,200.00

This abstract painting is a fascinating work of art that captivates with its harmonious color palette and dynamic composition. Dominant shades of blue and green convey a sense of vastness and depth, reminiscent of a clear sky or a pristine waterscape. The soft transitions between the colors create a calming, almost meditative effect, while the subtle golden accents and dynamic lines add vibrancy and movement to the picture. The abstract nature of the picture means that it fits well into different interior styles and brings a special aesthetic to any room in which it is displayed. It is a work that impresses with both its visual impact and its emotional depth.
