

Ilona Schmidt: Picture "Portrait without title 1" (2024)

€1,100.00

This expressive portrait, created with a palette knife in the colors red, yellow and black, captures the fragility of female nature. The lines, which clarify the outline of the woman's portrait, lend the painting a certain intensity and depth. Each stroke seems to reflect the delicate yet strong nature of the woman, while the colors add an emotional layer. The work invites the viewer to explore the complexity and grace of the female soul. Work is dated and signed
