

## Robert Hettich: Picture "Unknown forces" (2019)

**€3,300.00**

The works possess an artistic vision characterized by an interplay of light, color and composition. The works invite the viewer to engage on a deeper level, encouraging them to explore their creations not only with their eyes, but also with their emotions and introspection. The journey is a testament to a commitment to explore the individual's place in society and the complex interplay of circumstances to delve into the human experience and decipher the intricacies of existence and connection in a rapidly evolving world.
