

Angela Wichmann: Picture "Three Days" (2024)

€2,700.00

I took the inspiration for this oil painting from nature, from the light of spring and the scent of summer, spiced with a pinch of longing. Mountains, water and city create a harmonious composition that encourages the viewer to wander off into the distance. Here I merge warm summery colors into a reflection of modern to abstract landscape emotions with a bit of sunset. Modern oil painting, unique, professional quality, canvas stretched on stretcher frame and ready to hang.
