

Heinz Stoewer: Picture "cockfight" (2020)

€1,800.00

The abstract work with a gray background and very dynamic forms in shades of beige and red evokes associations with a fighting rooster, from which the title "Cockfight" is derived. The unusual combination of colors and the irregular shapes and surfaces create a very tense atmosphere. The viewer's eye can always discover new and familiar things in the many small details. As this is an abstract work that was created in a long painting process with many coincidences, a source of inspiration is not recognizable. The work is signed and dated on the back.
