

su sea: Picture "Taurus II" (2022)

€3,600.00

The work "bull II" was awarded the MERIT AWARD, an International Art Award by Grey Cube Gallery, USA, Florida in 2023. Furthermore, in 2023 it won the 4th prize (out of 406 participants) of the International Art Competition "colors" of Fusion Art Gallery, USA, New Mexico, Santa Fe. The bull depicted symbolizes strength, power and dynamism on the one hand, and on the other hand, the animal still used in bullfights, representative of the instrumentalization of many animals for the purposes of humans. Themes such as mindfulness and the interaction of all living things with each other, are the central issue of this work. The bold and vibrant primary colors represent the clarity the urgency and importance of the subject matter.... For the mixed media work I used acrylic paint, plastic masses, tissue paper, graphite and oil pastels. The painting has texture from the tissue paper and plastic masses used. The varnish is glossy.
