

Bea Schubert: Picture "There Is no Place Like Home (Diptych)" (2023)

€9,000.00

"There is no place like home" is an oversized painting: 195 cm high x 200 cm wide, 4 cm deep. The painting is painted with acrylic paints on high-quality canvas. It consists of two panels of 100x195 cm. The theme of home/homeland has occupied me for many years. Flying birds, which symbolize freedom, appear again and again. The "Home" series of works tells of love, trust, hope and finding a home. On a trip through Spain, I discovered the saying "Never close your heart and your home: let birds, friends, the sun and the air into your house." This saying inspired me to create this series of works. Turquoise blue is the color of the sea. The color inspires the spirit. Yellow conveys hope, which is so important to me in my paintings.
