

BIGUI: Picture "Bananas" (2020)

€1,150.00

In my work, I capture the joie de vivre of nature, a celebration of colors and shapes. The acrylic paints make every single banana shine, vibrant and full of energy. The influences of Art Brut and Pop Art merge to create a fine work of art that brings warmth and the promise of sweetness to any room. It is an ode to the beauty of the everyday - a piece of nature. The painting has been stretched on 3.5 cm deep gallery stretchers and can be hung without additional frames, as the sides of the picture have also been painted.
