

Sabrina Seck: Picture "time is money" (2022)

Bunny has to hurry, because time is money... This work was painted on a wooden canvas. The background is black with golden dollar bills that shimmer depending on the light. These dollar bills are 24-carat gold-plated. A certificate is enclosed. Finally, the work was covered with resin. This resin coating shines like a pane of glass. Reflections in the product images were therefore unfortunately unavoidable.
