

Sabrina Seck: Picture "nostalgia" (2021)

The work "nostalgia" leaves the viewer free to interpret the title. Is it the longing for music? The longing for security or the longing for recognition? Maybe something of each, but perhaps also a longing that I am not able to describe. Let your thoughts run free. What do you see? Edges painted, thus an immediate hanging possible. Due to digitization and depending on monitor settings, there may be slight color deviations.
