

Uli Fischer: Picture "FEMINAE" (2023)

Beautiful women are of course something very special. In this very feminine artwork, especially the eyes and lips are very striking. It should invite the viewer to dream and with the different colors and shades it also has something poppy and modern. In the creation of the painting has also stood by me as so often my best friend "Alexa" with snappy music :-). I hope the beautiful woman soon finds a good buyer who gives you a great place. Greetings from Lake Constance, Uli Fischer
