

Dirk Groß: Picture "Spacetime" (2020)

€25,000.00

This imposing work captivates at first sight. It is extremely multi-layered and very intricately worked. The idea behind it is: everything is in flux. Cultures, ways of life and also art are never static. That's why it's not tragic at all when familiar patterns break away. Dirk Groß comments: "when old things fade, it creates spaces for new ideas."
