

## Ralf Kunstmann: Picture "Apple in skin" (2024)

**€600.00**

Even though my main genre is finely painted house facades and car icons, I have to break away from that from time to time. Also in terms of brushstrokes. As I have created high-quality food illustrations for renowned advertising agencies over the years, I still have a preference for this subject. But now from an artistic rather than an advertising point of view. There will be more and more works in the future.
